Suman Sahu

SOFTWARE DEVELOPER

MCA

EXPERIENCE: 2 YEARS

Profile

Enthusiastic and self-motivated Software Developer with over 2 years of experience, seeking an opportunity to leverage my skills and knowledge to contribute to organizational growth and advance my professional development.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, HTML5, CSS3
- Frameworks/Libraries: Node.js, Express, ReactJS, React Native, Redux, React Navigation, Ant Design.
- Databases: Firebase, MongoDB, MySQL
- Tools: Git and GitHub
- Design: UI/UX
- Cloud Services: Firebase, MongoDB atlas
- Other: RESTful APIs, GitHub Actions, Push Notifications, WebSocket.

Experience

ANYHOW INFOSYSTEMS | SOFTWARE DEVELOPER | JUN 2023 - PRESENT

- Contributed to full-stack development using **Node.js**, **Express.js** and **React Native**, helping design and implement scalable, secure, and modular **RESTful APIs** to support mobile and web clients.
- Implemented backend services with structured routing, middleware, and error handling, ensuring clean code separation and maintainability.
- Assisted in creating API endpoints for core features like user registration, login, product listing, cart management, and order placement.
- Implemented **JWT-based** authentication and role-based access control, securing API endpoints and user-specific features.
- Designed and optimized database schemas in **MySQL**, applying indexing and query optimization for high performance.
- Used tools like **Postman** to test, debug, and validate backend APIs throughout the development lifecycle.
- Developed responsive, cross-platform mobile applications using React Native, optimized for Android, and iOS.
- Built reusable components and screens in React Native to support features like product browsing, cart operations, and user onboarding.
- Handled navigation, state management (using Context API or Redux), and device-specific styling for a smooth mobile experience across Android and iOS.
- Managed app releases on the Google Play Store and Apple App Store using Play Console, App Store Connect, and TestFlight.

Registered Address: HD-142, WeWork Berger Delhi One, Sector 16B, C-001/A 2, Noida, Uttar Pradesh, 201301, India

Key Projects

Carvahan: Car Rent, Self Drive

- Designed and implemented Create, Read, Update, and Delete **APIs** for multiple database entities, enabling full lifecycle management of records with proper error handling and validation.
- Used **JWT (JSON Web Token)** for secure authentication. Implemented login, registration, and protected routes to ensure that only authorized users can access sensitive endpoints.
- Built dynamic filtering logic for **MySQL** queries to retrieve records based on various fields (e.g., search by name, date, status). This allows clients to fetch refined results efficiently.
- Followed **REST principles**, structured endpoints cleanly, and handled appropriate HTTP status codes for better frontend integration and error tracking.
- Integrated secure file upload support using **multer**, allowing users to upload and store files (such as documents or images) efficiently on the server or cloud storage.

Admin Panel for E-commerce Application

Contributed to backend development for a Magento-based e-commerce platform by creating robust APIs using **Node.js** and **Express.js** to support store management and customer operations.

- **Created RESTful APIs** for key features such as order management, inventory updates, return handling, and user role permissions.
- Implemented backend logic for **customer-initiated return processes**, including request validation, status tracking, and integration with Magento services.
- Applied **error handling**, fallback mechanisms, and structured routing to ensure stability and maintainability of the backend services.
- Designed and optimized **MySQL database queries** to support efficient data retrieval and updates.

E-commerce Application

Developed Magento-based e-commerce application with multiple customizable skins, enhancing user experience and brand versatility. Streamlined backend operations and integrated advanced features to ensure seamless online shopping and efficient store management.
